

CBD 2001 Sidewalk Projects

Summary This project consists of the repair and replacement of existing sidewalk sections in the downtown area, including curb and gutter repair and replacement, construction of ADA ramps and retaining walls, and driveway removal at various locations, as well as utility adjustments and relocations.

Status In preliminary design.

Description This is the construction, reconstruction or widening of sidewalks, curbs, curb ramps and retaining walls on 21 different segments in the downtown area. 5,760 linear feet of sidewalk, ranging from 4 feet (widening) to 10 feet wide.

	Project	Start	End	Side	Length	Width	Job per C.O.A.
6	3rd Street	Brazos	San Jacinto	south	300'	8'	rebuild sidewalk, build curb
7	3rd Street	Red River	Sabine	north	300'	6'	build sidewalk and curb, drainage from street
