Ground Rules

- Focus on issues, not on people.
- Speak your mind and get to the point.
- Allow people to speak uninterrupted.
- Point/counter point runs through the facilitator.
- Use discretion between meetings.
- Stakeholders are encouraged to appoint multiple individuals as representatives in order to assure representation throughout the process. Only one representative should speak for the stakeholders in meetings.

We want Austin to be the most livable city in the country.

- When stakeholders support consensus decision-making they do so on behalf of their organization.
- Decisions will not be revisited because stakeholders were not present or represented when a decision was made.

We want Austin to be the most livable city in the country.
