

Toilet Rebate Program

Rebate Program Guidelines

Eligibility

- ≈ The property must have been built before January 1, 1996. Please check Travis County Appraisal District. Call 974-2199 to check the property's prior City of Austin toilet participation.
- ≈ Replacement toilets must be certified as WaterSense High Efficiency Toilets.
- ≈ **Application must be submitted within 30 days!**

Quick Tips

1. Replacing old toilets with WaterSense labeled toilets can save about 4,000 gallons per year.
2. Dispose of trash in trash cans rather than in your toilet to reduce excess water usage.
3. While replacing your toilet, consider also replacing your showerhead with a low-flow model and installing aerators on your faucets.

Look for the WaterSense label

A list of certified toilets can be found at www.epa.gov/watersense/product_search.html or call 974-2199.

Program Information

The Toilet Rebate Program offers a rebate for the cost of the toilet (tank and bowl only, excluding tax) up to the following maximums, when replacing existing toilets with certified **WaterSense High Efficiency Toilets**.

≈ Replacing pre-1996 toilets with HET models – up to \$200 rebate per toilet. If the toilet purchased is under \$200, the rebate amount is the cost of the tank and bowl only, excluding the tax.

Examples:

- a) For a toilet costing \$145 - REBATE = \$145
- b) For a toilet costing \$210 - REBATE = \$200

Program Requirements

- ≈ The property must receive a direct bill from Austin Water Utility or an eligible wholesale district. See www.WaterWiseAustin.org for qualifying districts.
- ≈ There is a limit of three toilets per home (if three bathrooms) for any combination of toilet rebate and free toilet programs.
- ≈ Qualifications are based on previous City of Austin toilet program participation, as well as the year the home was built.
- ≈ The rebate does not cover the cost of installation. Participants are responsible for installing toilets and destroying old toilets to prevent reuse.
- ≈ The applicant is responsible for ensuring accuracy and completion of application and invoices prior to submittal. Incomplete applications will be put on hold until we receive the required information.
- ≈ Rebate checks must be issued in the name of the property owner as verified by tax records, the current utility account holder(s), or a third-party designated in the utility's billing system (call 494-9400 to add designees to your utility account).

Application Instructions

After installation, submit the Rebate Application along with copies of original sales receipt(s) or invoice(s), including purchase date, brand, and toilet model number. You will receive your rebate check within six to eight weeks.

Toilet Rebate Program

Residential Application Form

Please read program guidelines on page 1 prior to filling out form.

Eligibility

- ≈ The property must have been built before January 1, 1996. Please check Travis County Appraisal District. Call 974-2199 to check the property's prior City of Austin toilet participation.
- ≈ Replacement toilets must be certified as WaterSense High Efficiency Toilets.
