**AUSTIN WATER UTILITY – WATER CONSERVATION
TOILET REPLACEMENT PROGRAM FOR RESIDENTIAL CUSTOMERS
APPLICATION GUIDELINES**

02/2007

The City of Austin offers a Toilet Replacement Program that enables residential water customers to replace their old toilets with efficient water-conserving toilets in order to save water and money.

Homebuilders can receive a \$50-per-toilet incentive to install high-efficiency toilets (HETs) in new construction. This incentive is valid for up to three toilets per dwelling, for properties that will receive water from the City of Austin or a qualifying wholesale supplier.

PROGRAM REQUIREMENTS

- Toilet(s) must be installed in a property that receives water from the City of Austin or an eligible water district.
- Participants agree to an installation verification visit.
- Participants agree to install water efficient showerheads using 2.5 gallons per minute or less. Participants may purchase their own or pick up free showerheads from Water Conservation at 625 E. 10th St, Suite 615.
- Please check the list of qualifying toilets on the reverse side of the application form before you make your purchase. *Only the toilets listed are eligible for a rebate.*
- A completed application must be submitted with a copy of the sales receipt showing the toilet brand and model within 30 days of the purchase or installation date. The rebate covers only the cost of the tank and bowl. It does not cover wax ring, bolts, or toilet seat.
- City staff will call participants to set up a verification visit, typically within 2 weeks of receiving the application.

WHAT TO DO NEXT

TOILET REBATE OPTION

1. Purchase toilet(s) on approved list
2. Submit completed application with sales receipt
3. Water Conservation will call to schedule inspection
4. Rebate check will be mailed 4-6 weeks after inspection
