

Top Themes

Traffic/cars/roads

- Connectivity
- Slowing traffic

Ped/sidewalks

- Improve walking conditions in the neighborhood by adding more sidewalks (as well as repairing existing ones in need), walking trails and crosswalks.

Bike lanes/bikes

- Improve biking conditions in the neighborhood by adding bike lanes, routes and paths.

Public transit

- A better bus network that allows to you to easily get to major destinations without multiple stops
- Provide public transportation options that are easy to use, specifically for seniors and children.

Other

- Create a safe and well-connected neighborhood

Notes taken from DREAM BIG! poster:

Traffic/cars/roads

- St. John Roads to 183 lack connectivity; a lot of pressure is placed on Blessing b/c it is the only road that goes provides N/S access all the way through the neighborhood (St. John to 183).
- Bennet also receives pressure as it is one of only two roads that provide connectivity N/S through the neighborhood
- Investigate options to slow traffic (ex. Lighted crosswalks, etc.)

Bike lanes/bikes & Peds/sidewalks

- Need more Bike & Ped routes
- Have bypass over 183 & IH 35 (for bike/peds only)
- Would like to walk to shopping (access)
- Need higher quality of sidewalks
- Need more bike paths
- Need to add sidewalks and make the neighborhood more pedestrian friendly (walking)
- Need a walking trail
- Need more crosswalks in key areas

Public transit

- Buses need to provide better access to downtown; there are too many stops on the routes we have to choose from – we need more non-stop routes
- Need van pool/ride share with a roster where people can sign up for a ride
- Need a book mobile and more mobile services in general...vehicles that provide these services; mixing the old with the new
- Buses – the routing is difficult, need smaller buses

- Need to work with CapMetro to improve the distribution of route information
- Want an express bus
- More senior and kid friendly transportation (shuttle buses)
- It is difficult for some residents to get from their house to the bus stop because the bus stops are all on the major roads and do not come to pick up closer to people's houses

Other

- Need more lighting to create a safe neighborhood
- Better connectivity
